ARMY BOMBERS NEAR PERU

6 "Flying Fortresses" Hop To South America As Navy Strengthens Northwest

QUARRYHEIGHTS, Panama Canal Zone, via army radio to Washington. (UP)—Six army "flying fortresses" sped southward over the Pacific today along the West coast of South America, toward Lima, Peru, first scheduled halt on a 6000 mile good will flight to Buenos Aires.

Roaring along in loose formation at from 170 to 190 miles an hour, the 22 ton bombers were about 400 miles south of the Panama Canal Zone eight hours after they took off at Miami, Fla.

Their position was about 230 miles west of Buenaventura, Colombia—and about 1500 miles south of Miami and approximately 1200 miles from the Peruvian capital. They reached the halfway mark in the 2700 mile non-stop dash to Lima around 7 a. m. PST.

Under command of Lt. Col. Robert Olds, the six planes took off from Miami at 12:55 a. m. and averaging 172 miles, reached the Canal Zone in a little more than six hours. Arriving over Panama at 7:13, the six ships served to demonstrate the speed and mobility of America's aerial fighting forces.

NAVY STRENGTHENS

SAN DIEGO. (UP)—Defenses of the gateway to the great northwestern lumber, grain and mineral empire are to be strengthened by the U. S. navy within the next week.

Probably on Monday, Feb. 21, a squadron of seven of the latest type of patrol bombers will leave here to fly to the Sand Point naval air station at Seattle, to replace older type craft in one of the three squadrons permanently.

Tijuana Rapist Executed

Mexico Administers "Law Of The Fugitive" To Confessed Murderer In Attack On Child

TIJUANA, Mex. Juan Castillo Morales, 24-year-old Mexican soldier, today died in a hail of bullets for the confessed rapist-murder of 8-year-old Olga Comancho.

Morales died when Gen. Manuel Contreras, commander of the 2nd military zone, applied la ley fuga—law of the fugitive.

The confessed soldier was taken from the military prison to the military cemetery, on a hill overlooking Tijuana.

A volley of shots rang out from the escort and as Morales sought to flee another squad, already in the cemetery, also opened fire.

Morales staggered, regained his feet, and ran about 25 yards before another volley brought him down. As he attempted to rise another hail of shots felled him finally.

A soldier then walked forward and with a revolver administered the "shot of mercy."

Formal charges of homicide and rape had been filed against the youthful soldier yesterday in the court of the first instance. However, under Mexican law governing this federal territory the extreme penalty for murder is 20 years of penal servitude.

Civilian and military authorities agreed the shooting of Morales would quiet what remained of any militant, or mob spirit here.

William H. Harvey Rites To Be On Friday

William H. Harvey, former Sacramento restaurant man, who died Wednesday at Boyes Springs, will be laid at rest in funeral services Friday at 3:30 o'clock from the Miller and Skelton mortuary, at Sacramento.

Mr. Harvey was the father of five sons, Roderick, of Sacramento; Roy and Ray, of Sacramento; William, of Boyes Springs, and Alger W. Harvey, of Orland, and formerly of this county.

Mrs. Ellen Barker was hostess Wednesday evening for three tables of bridge, the players being a group which meets at the home of members on the first and third Wednesday evenings of each month during the winter season.

NOON HOUR OF EACH SCHOOL DAY AT THE PLACERVILLE GRAMMAR SCHOOL finds approximately 60 pupils eating their lunch at the school lunch room, which is maintained by the Parent-Teacher Association with the assistance of a WPA project. The Parent-Teachers supervise the lunch room and the WPA pays the wages of two women kitchen attendants. The children may bring their lunch from home, and supplement it with a bottle of milk, a hot dish or a dessert, or all three if they desire, which they may purchase at a charge of five cents per dish. Serving is cafeteria style. The Democrat photographer found this healthy and very evidently happy group in the lunch room, which is on the lower floor of the school building, during noon hour Tuesday.

County Native Taken Feb. 11

Mrs. Minnie Ennor, Sister Of William Albright, Laid At Rest On Monday

A pioneer native of the Coon Hollow district, Mrs. Minnie Ennor, passed away on Friday last at her home in Berkeley. She was a daughter of the late Mr. and Mrs. Charles Albright, Sr. of Coon Hollow, and a sister of William Albright of Placerville.

Mr. and Mrs. William Albright were at Berkeley for the last rites, which were held from the Little Chapel of the Flowers, on Monday, and the body was laid at rest at Sunset Mausoleum.

Born more than eighty years ago, Mrs. Ennor spent her girlhood in the Coon Hollow district and as a young woman became the bride of Martin Ennor, in a service at the home of her parents.

The couple left here a short time following their marriage and made their home in Elmira until 1914 when Mr. Ennor passed away. A son, George Ennor, passed away in 1923 and is buried here in Placerville.

Following the death of her son, Mrs. Ennor went to Berkeley where she had since made her home with her grandson, Martin Ennor.

She is survived by a daughter, Mrs. Edward Barry of Berkeley, and a son, Harve Ennor of Walnut Creek, and three grandchildren in addition to her sister, Mrs. Nellie March, of Elmira, and her brother, William, of this city.

The older residents of Coon Hollow and of Placerville will remember Mrs. Ennor as a favorite among those who best knew her. She was a woman of fine traits of character, quiet, unassuming and charitable in her judgment of others.

SOFT BALL ENTHUSIASTS MEET ON WEDNESDAY OF NEXT WEEK

Following an exhibition series of soft ball games last fall, the approach of Spring weather has revived interest in the sport and, according to Wallace M. Ripley, secretary of the county Chamber of Commerce, there is some probability that a soft ball league may be formed.

In response to public interest, a meeting of all soft ball fans has been called to be held at the P. G. E. Company offices on Wednesday evening of next week at 7:30 o'clock to determine whether there is interest sufficient to warrant the forming of a league.

It is reported that several teams are in a formative stage and are holding up definite organization plans pending decision on whether a league will be established.

Mr. and Mrs. D. C. Maybury, of Auburn, are the parents of a daughter born Wednesday at Sacramento, according to Sacramento papers. Mrs. Maybury is the former Miss Florence Raffetto, daughter of Mr. and Mrs. F. J. Raffetto, of Placerville.

Storm Loss Is Summarized

The following summary of storm damage resulting in El Dorado County from the severe wind and rains of a week ago is supplied by our correspondents in the rural communities designated:

White Rock

At the George Kyburz place the roofs were whipped off the dwellings, store rooms were badly damaged and the big barn, fifty feet by fifty feet, was flat or nearly so. The Euer barns and the Smith Barns were also down. Mrs. Mary Dormody, who had been visiting in the district, was unable to get to her home on Folsom star route owing to trees blocking the Mormon Island road.

Camino

Camino suffered considerable damage in the Wednesday wind storm. Fallen trees broke the power lines and shut off electricity until Saturday night and at this writing it is still shut off in the vicinity of the school house and above Camino. All work was at a standstill from Wednesday noon until Monday except the C. P. & L. T. train which made its usual trips to town but was halted on Monday morning due to a slide on the railway near Smithflat, but resumed its trip on Tuesday. Telephone service was gone and travel on the highway was difficult and dangerous.

The false front on the upper garage, used for storage, was torn away by the wind. A cedar tree crashed into the roof of Mrs. Jane Barkley's house, tearing a large hole. Charles Schaeppi's house, on Fruit Ridge, was damaged by a fallen tree, also.

Light wires were torn out of Everett Reese's home and several trees fell near his place. John Mace had the roof completely blown from his double garage without taking a scratch of paint from his new car. The wind played havoc in the Michigan-California Lumber Company's yard, taking the covers from many piles and twisting the boards in all directions. A tree fell on the home of Mr. and Mrs. William Voiles.

Camino received 2.57 inches of rain during the recent storm bringing the total for the season to 37.64 inches. We had about ten inches of snow Thursday morning and eight inches again Saturday and at this writing we have about six inches still on the ground.

Salmon Falls

A large shade tree in the Peter Gnafoglio barn yard blew down, damaging the barn. A cedar tree and fig tree were blown down at the Miller place. The fig tree had been planted in the pioneer days, was in excellent condition and supplied figs for all Salmon Falls. Two beautiful shade trees were uprooted in the school yard and fell very near the school house. The wind blew the stove pipe down at the schoolhouse and Mrs. Nan Kelly and her pupils completed the week with an oil heater for heat.

Georgetown

The high wind of last Wednesday did considerable damage. Several pieces of corrugated tin roofing blew off the American Hotel and some of it fell in

the yard at the Morgan home, across the street, after striking a power pole there. A large fir tree, one of a group of trees in the Francis yard, on Church Street, was uprooted and in falling tore down the high tension wires and broke one of the power poles. The wiring was also disconnected from the residences of R. J. Murdock and George Breedlove by the impact of the crashing tree.

Frank Richards, the P. G. & E. Company man, was at the scene a few minutes later and had the power switched off so there were no live wires to menace people or property. A building at the old Eureka-Woodside mine, on Upper Main Street, was blown down and another nearby, used as an office by the Beebe Mine Company, was slightly damaged. A large cedar tree in this district was uprooted but fell clear.

Telephone and power service was out for several days. Phone service has been restored and power service is almost up to normal except for the homes effected by the damaged line on Church Street. Here, people are still using lamps, flashlights and candles but feel happy that they escaped as lightly in such a hurricane.

When a road crew engaged in clearing the Volcanoville road of deep snow on Sunday failed to arrive home until the hour was growing quite late, Supervisor Breedlove drove up to meet them. They were a few miles above Balderston's Station. Their difficulty was car trouble with a truck used to transport them to and from work. Storm and snow conditions then made it impossible to get Breedlove's car out so the men were forced to walk to Balderston's store where Harry Balderston drove them home. They reached here about 4 o'clock Monday morning.

Kelsey

The "big blow" did the usual amount of damage to fences thrown down by falling branches, trees uprooted and small buildings twisted off their foundations.

Jack Altamalt, well-known and elderly miner, living on his mining claim, the Blue Lead, was not so fortunate. A huge pine tree fell across the cabin, barely missing the occupant, who is at best quite a cripple. Fred Miser and John Compton, knowing of possible conditions, found the cabin broken down except for one corner where they found Jack huddled, and rescued him. He and his belongings that they could rescue were taken to the home of James Hodge, on Dry Creek, where he will be cared for until such time as the place can be restored.

With this summary, and with the data reported last week, chiefly concerning damage in Placerville and vicinity, we conclude the report on storm damage by adding a report received during the week from the James Sweeney ranch, where portions of the roof of the home were blown off and there was some severe damage to the barn.

WEATHER

Fair, continued cold tonight and Friday; high 52; low, 22, lowest of season.

STATE "G-MAN" UNIT URGED

Take Law Enforcement Out Of Politics, Urges Morrill, Citing Cost of Crime

By JOHN ABBOTT

United Press Staff Correspondent
FOLSOM PRISON (UP)—Two authorities today proposed methods of checking California's mounting crime cost, estimated conservatively at \$50,000,000 annually.

Warden Clyde I. Plummer of this institution, a police officer of 25 years' experience, appealed to the legal profession for a "closed approach to the fact that a very small percentage of our population is costing the decent citizens a staggering sum in law enforcement."

Carnegie S. Morrill, chief of the state division of criminal identification, asked a two-point program:

1. Take law enforcement out of politics.
2. Establish a department of justice, a "little G-man bureau for California."

Morrill introduced figures to support his contention that the crime situation in California is not improving.

Folsom, housing nearly 3,000 convicts, cost \$1,184,289 to maintain during the 1935-37 biennium. San Quentin, with approximately 5,000, added \$2,224,823 to the taxpayers' burden in the same period.

The state's enforcement agencies increase this total.

The schools for boys at Whittier and Preston, the home for girls at Ventura, the women's prison at Tehachapi, each is a separate bill of expense. A prison for first offenders, to be built at Chino, in San Bernardino county, will cost more than \$2,000,000.

Add to this the appropriations for the California Highway Patrol, the

(Turn to page 4)

Cougars Invade Ione Friday

Games Postponed From Last Week Because Of Storm Are Re-Scheduled

Coach L. A. Brown's Cougars, with a chance to finish in the running for the divisional championships in all three classes, invade Ione Friday night for a series of three games with the Ione high school.

The games were originally scheduled to be played on Friday night of last week, but were cancelled because of bad road conditions arising as a result of the severe storm.

The Cougar C team must win from Ione if it is to retain undisputed leadership in its division, and a victory for the El Dorado lads will send them into the Mother Lode League championships.

The Bees are now tied with Ione for the top of the standings and if they win Friday night, they, also, will be in the Mother Lode League championships.

The Cougar A five will have to defeat Ione to go into a tie for first place with Sutter Creek, and in that event there will be a play-off to decide which five will go into the championships.

Under the plan of league organization, there are three divisions, A, B, and C, playing in each section of the Mother Lode League, the Cougars being in the northern section.

Thus, after the winners in all three divisions of the northern section are determined, they must play the winners in their respective divisions in the southern section for the Mother Lode League championship. Winners then go on to regional championships.

Mayor's Brother, Buddy, Here From Chicago

For the past two days George E. Faugsted and family have been host to two visitors from the East. One is Frank Faugsted, brother of the Mayor and "his old-time friend and buddy, Henry Geselbracht, both of Chicago. However, prior to coming to Placerville for the short visit, the two men have been spending sometime in Southern California, taking in the sights. They left Thursday morning for a return trip to Los Angeles before driving on home to Chicago.

75 Enrolled In 4-H Clubs

Meeting Of County Council In March Will Be Planned As Special "Fun Night"

Enrollment in El Dorado County 4-H Clubs totals 75 and probably will exceed 85 before the end of the current year.

This is according to reports by club leaders at the regular meeting of the county 4-H Club Council, held Wednesday night at the Farm Advisors office.

A very large majority of the membership is active, the leaders reported, and every club is making an effort to have at least one demonstration team in some field of agriculture this year.

The council made plans for a county-wide 4-H Club "fun night" to be held at the Coloma Community Hall on April 29th. The arrangements for this event will be a special order of business at the next meeting of the council, which will be a "fun night" occasion to be held at the Tennessee schoolhouse on March 16th.

Ursula Hogan and Mrs. Gray are on the entertainment committee for the March meeting, and refreshments will be planned by George Volz and Miss Helen Bennett.

SIX FEET OF SNOW ON LEVEL AT TALLAC, HILL REPORTS

There are six feet of snow, level measurement, at Tallac, on the south shore of Lake Tahoe, according to a report received Thursday morning by Ranger Raleigh Bryan from Leland Hill, Forest Service fire chief at Tallac.

While reports from the snow sports area in the American River Canyon as far east as Kyburz fail to note any depth equalling the Lake Tahoe report, advisers state there are about three feet of snow at Kyburz and ample snow depth in the areas west of that point for snow sport fans this week-end.

It is expected that a large number of winter sports fans will take advantage of the opportunity to enjoy snow sports under almost ideal conditions this week-end.

In anticipation of this event, Placerville winter sports dealers are calling attention to their varied supply of snow sports equipment in their advertisements, published elsewhere in this issue.

Tuesday To Be Holiday In County Seat

Tuesday, Washington's Birthday anniversary, will be a general holiday in the county seat as far as business is concerned.

Federal offices will observe the day. The court house and city hall will be closed, as will the Placerville Branch of the Bank of America.

Under the terms of a city ordinance regulating the closing days of certain stores, food stores and principal other stores of the community will be closed all day.

Commerce Chamber Plan To Be Aired Monday	
The proposed plan of broadening the service of the El Dorado County Chamber of Commerce will be dis-cussed with the membership of the organization at their regular meeting on Monday night, February 21, at Hotel Trifles. The plan was brought by President Reed Whigham at a directors' meeting of the chamber several weeks ago and was tentatively approved by the directors at that time in its then tentative stage.

LEGION'S SCOUT TROOP ATTENDS MEETING OF POST

At the regular meeting of El Dorado Post No. 119, American Legion, Wednesday night, the organization was honored by a visit from Father Walsh, state department chaplain of the American Legion, who gave a splendid talk on the reverence of the veterans' organization.

Father Walsh is touring the state, and speaking before the larger Legion posts and the members here feel they were exceptionally fortunate in having the state officer visit them at this time.

The post's sponsored Scout Troop, also visited the meeting and put on an excellent demonstration that was well received by the members. Robert Sinclair, Senior Patrol Leader, was in command of the Scouts. George Taylor was the yell leader and Billy Rupley gave a comprehensive report of activities of the troop during Scout Anniversary Week, just ended.

Birth of a daughter on Wednesday, to Mr. and Mrs. Elmer Swansborough, of Sacramento, is reported by Sacramento papers. Elmer is a former Placerville boy.

Mr. and Mrs. M. E. Raber were up from Sacramento on Wednesday to attend funeral services for Mrs. Lena Rantz.

COUNTY STORM DAMAGE PROVES SEVERE IN SOME SECTIONS

(Continued from page 1)

Rescue

The people of this vicinity are all thankful to be still here. The wind started to blow at 11:30 on Wednesday and blew for about three hours. The following damage has been reported so far. Parts of the iron roofs from Mr. J. W. Fleming's barn and the A. J. Engesser ranch was moved quite a distance. A tree at the Dormody place was blown against their houses.

Two gates and a hay-rack were demolished by falling trees at the George Wing ranch and their telephone line was torn down. A tree fell across the garage at Mrs. J. C. MacDonald's, smashing the garage and their car, which was inside. The porch roof was torn off the home of Johnnie Hughes. Trees by the score are down everywhere.

It is estimated that there are enough trees down at the J. W. Fleming ranch to make 100 tier of wood. The telephone line of the Green Valley Rural Telephone Company was severely damaged by falling trees and only a few of the families have service at this writing. It will be several days before we have service to Polson.

A section of the porch railing was torn off and several trees were felled at the Ed Glenn ranch.

We were visited Sunday evening by a severe rain. Water was the highest it has been this winter. Creeks were all running over their banks. Large pine trees, eighteen inches in diameter, floated down the streams. Roads were damaged a good deal in different sections. The concrete bridge on the C. T. Uhlenkamp road was broken in half and sank about a foot. The building which houses the benches at the Deer Valley Cemetery was torn down and lifted over the fence and the benches were scattered in Mr. Grote's field. The barn at the Glass ranch was also blown down.

Lotus

The wind broke the power line at the Coloma monument and also in Lotus, which left us for two days and two nights to fall back on coal oil lamps. The wind took part of the roof off Wesley Grother's barn and the roof of Archie Lawyer's chicken house, and blew down some of the shade trees on the Reaside property. Considerable damage was done at the William Craig chicken ranch and the brooder house is so badly damaged it will have to be taken down and built over.

The wind took the roof off the Curtis Golden's barn at the Four Corners. The first snow of the season visited our town last Friday afternoon, covering the hills for a short time, but it soon melted.

Coloma

We were so fortunate as to escape without any great damage. Some shingles were blown off some roofs and a number of trees were blown down, both along the main highway and in other parts of the community. But, by and large, we were lucky.

Garden Valley

Our school opened again Wednesday morning after being closed two days on account of the storm. But now the sun is shining and happy days are here again.

Missouri Flat

The surprise storm left a few things wrecked in our community. Lean-to's of chicken sheds were torn off and wrapped around posts and over the other sheds into driveways on the ranches of Bill Dunn and Roy Headington. Roy Marks' barn was hurt pretty badly and shingles were blown off the school house roof. The new community hall auditorium withstood the storm nicely. Roy Marks should be given due credit for seeing to it that the children get home the day after the storm.

Cool

Roads were blocked by fallen trees and electric service interrupted for several hours. The greatest damage was done at the J. B. Wagner place, al-

though the old red brick house, known throughout the county as the old Bailey place, escaped injury.

The old Grange hall, used for many years as a meeting place by members of the first Grange established in California, Pilot Hill Grange No. 1, was blown to the ground.

Another house on the Wagner property at the corner of Highway 49 and the Rattlesnake road, fortunately temporarily unoccupied, had a large oak tree crash down upon it. The huge water oak on Highway 49, which has stood for untold years in front of the brick house, as well as several other oaks to the south of the building and more than half of the black locusts planted along the old carriage drive in the early days were uprooted and blown down by the force of the storm.

Transportation was blocked for about two hours Wednesday afternoon between Cool and Pilot Hill by two large trees which fell across the road. A crew of local men with saws and axes then cut lanes through the trees so that cars could get through. State highway workers got on the job immediately.

Mother Of Smith Flat Woman Stricken

The funeral services for Mrs. Cecilia Mary Jackson, 83, mother of Mrs. Chester Carver, of Smith Flat, will be held at Sacramento on Friday from the Miller & Skelton Chapel, 1015 Twentieth Street, at 10 o'clock in the morning. Interment will be private.

Mrs. Jackson, widow of Henry W. Jackson, pioneer Florin rancher, passed away on Wednesday. In addition to the daughter named she is survived by two other daughters and two sons.

Immediately and by early Thursday morning all obstructions had been removed.

Rattlesnake road was also made passable by the efforts of residents until the crews of the county road department were able to clear the many large trees and branches away.

Part of the roof and rafters of the house occupied by the John Kemp family were blown away. Large sheets of metal roofing blew considerable distances away, from the roof of the Pilot Hill store and Sierra View hall. A chicken house on the Gaston Coudere ranch blew over and collapsed and a large tree in front of the old Nance residence blew over, damaging the building only slightly.

narcotics division, expenses of the state advisory prison board, prison terms and paroles boards, numerous other state agencies, and some idea is gained of what crime costs each taxpaying citizen in California.

"The proposed department of justice would be a squad of 30 men trained in scientific police work, who could move in on the major crimes, particularly in the rural areas which often are unprepared to handle big crimes," Morrill said. "They would offer their services on an anonymous basis. I don't care who gets the credit—let's catch the criminals."

To take law enforcement out of politics, Morrill would place all peace officers on a civil service basis, removable only for cause.

Kelsey Farm Center To Meet On Friday

The regular meeting of the Kelsey Farm Center will be held on Friday evening at Kelsey.

Missouri Flat Center, meeting on the following Friday, February 25, will conclude the series of center meetings for the month.

"Watch Buddy Baer," Says Gene Tunney

SAN FRANCISCO. (UP)—Buddy Baer, Maxie's brother, is one to watch in the heavyweight championship division, according to Gene Tunney, socialite, business man and one-time champion. Tunney, here to attend a board meeting of a distilling company of which he is a director, hazarded the guess that Buddy is better right now than Max Schmeling.

Trailer Home Attached, Family Moves To Garage

LOS ANGELES. (UP)—Not in the least abashed was the Tenehill family when their home, an auto trailer, was attached for a \$125 bill.

Mr. and Mrs. Harry Tenehill and the two children rode right along when the trailer was hauled off to a storage garage. They're going right on living in the trailer, inside the garage, and the bill hasn't been paid.

William Burns was a caller Thursday morning from the Aukum vicinity.

Knitting Club Meets At Valentine Party

Fourteen members of the "Knitting Club" were entertained at the home of Miss Fern Ellis, February Fourteenth. The evening was spent in knitting and games. Those who won prizes were: Mrs. Ann Beal, Mrs. Boots Simpson, and Miss Myrtle Tinker. A Valentine box, which caused much excitement, was the center piece of the refreshment table.

Those present were: Mesdames Ann Beal, Maude Patterson, Anne Wilkinson, Elizabeth Ellis, Onella Jackson, Evelyn Martin, Boots Simpson, and Doris Liddicoat.

Misses Dell Patterson, Lilly Visman, Betty Beal, Myrtle Tinker, and the two hostesses, Mrs. Florence Donnell and Miss Fern Ellis.

Diamond's Senior Girl Scouts Have Dinner

The Senior Patrol of Diamond Springs Girl Scouts gave a dinner on February 15th at the home of Mrs. Loren Hall, the Scout captain.

The dinner was cooked and served by Iva Rupley, Alice Buhler, Mary Edna Henderson, Mary Jean Newman and Bernice Monerichard. The guests were Mrs. William Henderson and Mrs. V. E. Newman.

The Girl Scouts have planned a whist party to be held at the Diamond Springs school on February 21 at 8 o'clock.

Mrs. Shirley Brauer and daughter, Miss Melva, and son, Floyd, of Los Angeles, arrived Wednesday evening for a visit of several days with Mrs. Brauer's father and sisters at the Shepherd ranch.

Army Bombers Near Peru

(Continued from page 1)
ly based there.

From the Sand Point air base the navy now operates a type of revolving assignment which always keeps the Sitka base staffed with one full squadron of long range bombers.

It is known that within the next 12 months, possibly in less time, the Sand Point base will have three full squadrons of the PB-2 type bombers.

In these planes the northwestern base will be equipped with aircraft capable of flying 2000 miles out to sea and returning; of carrying, over that distance, huge loads of bombs, in addition to crews of seven men each, and complete armaments for defense of the planes. The PB-2 type bombers represent the latest development in naval warplanes in active service, each boasting of a speed of between 120 and 165 miles per hour; each capable of operating as an independent unit, far from its base, for periods of time up to 10 days.

GARDEN SECTION MEETS TUESDAY AFTERNOON AT CLUBHOUSE

On Tuesday afternoon at the Shakespear Clubhouse the Garden Section will entertain the members and observe Washington's Birthday.

Mrs. L. J. Dormody, chairman of the section, has asked Mrs. Percy McNie, of Camino, to be the speaker for the garden program.

In respect to the memory of Mrs. Lena Rantz, the choral of the club adjourned Tuesday afternoon and will meet for their regular practice on Tuesday, February 22, at the usual hour.

"Pop Bottle Bandit" Shot By Merchant

HUNTINGTON PARK. (UP)—A pop bottle proved less effective than an automatic pistol, and the bandit who attempted to rob a 55-year-old storekeeper was dead today.

M. E. Bartholomew, returning home

with several hundred dollars in his pockets, was struck over the head by the "pop bottle" bandit. Turning on his assailant, he fired six slugs into the bandit's body.

George Pontious was a caller on Thursday morning from Coloma.

"NEW HOMES FROM OLD HOUSES"

now
is the time to
modernize!

With a Bank of America
Timeplan F. H. A. Loan

Title 1 (Modernization) has been reintroduced

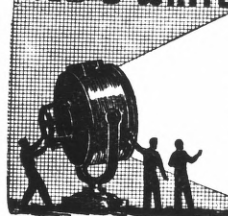

NOW is the time to remodel, repair, renovate. To make that antiquated dwelling look new and modern. Loans for the repair of existing structures may be made up to \$10,000. Repay on long time, monthly, convenient terms.

Plan your improvements, get an estimate from a reliable builder—then arrange a Timeplan F. H. A. loan through Bank of America. NOW is the time!
